# Nic Nolan

NicNolan@live.com • (503) 858-5339 • NicNolan.com • GitHub.com/NicNol • Linkedin.com/in/NicNolan

#### **EDUCATION**

## **Bachelor of Science, Computer Science**

Anticipated Dec. 2022

Oregon State University

Relevant Coursework: Data Structures, Algorithms, Computer Architecture and Assembly, Web Development, Databases, Operating Systems (4.00/4.00 GPA)

## Bachelor of Science, Philosophy

2014

Oregon State University

Minor in Writing, summa cum laude (3.90/4.00 GPA)

## **PROJECTS**

Course Analytics <u>Heroku | GitHub</u>

• Developed an application that analyzes real student course evaluations (time commitment, difficulty, tips, etc.) to help students plan their course loads using TypeScript, MongoDB, Next.js, and React.

- Created a public API to allow other students access to the aggregated data for further endeavors.
- Generate static pages for each course daily using data available at build-time.

Boeing Speckle <u>Heroku | GitHub</u>

- Built an API for providing Boeing specification metadata using Node.js, Express, MongoDB, and React.
- Programmed server to periodically scrape Boeing website, parse data with regex, and convert it to JSON.
- Established two methods for API requests: URL calls or a user-friendly GUI.

Fource <u>Heroku | GitHub</u>

• Designed an online board game that implements complex game rules, live chat, and synchronized state between players and spectators using Node.js, Express, and Socket.io.

## **SKILLS**

Languages: JavaScript, Typescript, Python, VBA

Technologies: Node.js, MongoDB (NoSQL), Express, React, Next.js, Git

#### **WORK EXPERIENCE**

## **Software Engineering Intern**

Jun. 2022 - Sept. 2022

Instructure, Salt Lake City, UT

• Will contribute to full-stack web apps using Ruby on Rails, React, PostgreSQL, Docker, Linux, and AWS.

## **Software Engineering Intern**

Jan. 2022 - May 2022

RubensteinTech, New York, NY

Will support standards-compliant web apps using JavaScript, Node.js, and React.

# **Quality Assurance Engineer**

Nov. 2016 - Sept. 2021

Astronics PECO, Clackamas, OR

- Created and maintained company system for reporting product defects using Excel and VBA.
- Collaborated with dozens of project teams to implement new products and create process improvements.

## **Quality Management Representative**

Ian. 2015 - Nov. 2016

Nuance Systems, Portland, OR

• Automated weekly reports using Excel and VBA.
